Norwegian laureates 2018

Randi Taxt

Bergen Technology Transfer Office, **Vice-president**

Under the H2020 EMBRIC project, BTO promotes new applications and innovation from marine bio-resources. A part of the work is to create a community to share best practices between the TTO and the industrial partners.

Roberto Rivas Hermann

Nord University Business School

Work focus on the greening of maritime supply chains, new business models to promote green retrofit packages and integration of actors in maritime supply network.
