FRANÇAIS
NORVÈGE

Åsgard-Research Programme

Norwegian Laureates 2018

Rasmus Gjedssø Bertelsen

UiT The Arctic University of Norway, Department of Social Sciences

/// Geopolitics of the Arctic, energy and technology systems in polar regions.

Marte Haave

Uni Research, Environment

/// Marine environmental monitoring, ecotoxicology and nano- and microplastics.

Gabriele Lobaccaro

NTNU, Department of Architecture and Technology

/// Smart cities, solar energy, bioclimatic design.

Elin Skurtveit

NGI, Petroleum Geomechanics and Geophysics

/// Geomechanics, CO2 storage; task leader in the Center for Environment-friendly Energy Research.

Mathieu Branlat

SINTEF Digital, Software development, Safety and Security

/// Resilience, cognitive systems engineering, ergonomics.

Anthony Mathelier

UiO, Center for Molecular Medicine Norway

/// Computational biology, cancer, gene expression regulation.

Elena Zhurova

Nord University of Business School, High North Center for Business and Governance

/// International collaboration and business in High North, implementation of SDGs.

Siv Gilfillan

Norwegian Institute for Public Health,

/// Method development for HPV screening, molecular methods.

Anton Shiarev

NTNU, Department of Engineering Cybernetics

/// Control engineering, robotics, robot modelling.

Magnus Rafnsson

NTNU, Department of Civil and Environmental Engineering

∥ Energy infrastructure and fiber reinforced composites.

Lars Sigfred Evensen & Dorothee Beerman

NTNU, Department of Language and Literature

∥ Educational writing, technology mediated linguistic documentation and analysis.

Per-Anders Hansen

UiO, Department of chemistry

∥ Thin films, luminescence, solar energy.
